Subject: Re: Harvey Info

One more question- is data collected during the response being posted on a website?
If so, please send me a link.

Thanks.

Pam/Ronnie,

Sorry for this barrage of questions, but I'm trying to get up to speed in order to report to the JFO tomorrow. If your folks can provide any or all of the following, it would greatly aid my prep. Thanks.

- Is there an org chart of our (EPA) incident command structure for Harvey, and/or a listing of who's currently serving in key positions?
- Is the drinking water/wastewater work we're doing still under ESF-3 (USACE lead), or has that changed since the last time we did this? If under ESF-3, is it covered under the same mission assignment as the ESF-10 work, or differently?
- Are there any standing calls that I should participate in? I haven't received an invite to any Harvey calls at this point.
- If there's some material with the current overall (govt-wide) response structure with current terminology, that would be helpful
- What kind of daily reporting should Kell and I plan to do, and who should we send it to?

Bill
